

# Christmas Clothespin Letter Matching

# Christmas Reindeer Clothespin Counting & Color Match

## Directions:

- Print out these pages on card stock, cut out, and laminate for durability
- You will need 8 clothespins for the Reindeer counting activity. Make these reindeer To make it more fun, make the clothespins into Reindeer like here: <http://www.2teachingmommies.com/2011/11/clothespin-rudolph.html> Write the numbers 1-8 on them and give each reindeer a nose of a different color (that matches the colors above)
- For the Reindeer counting: Have your child count the carrots in each section of the wheel and attach the corresponding clothespin number. For the Reindeer Color matching: have your child match the reindeer nose color to the colors on the wheel.
- Other activity idea: Print out two sets of each wheel, cut out each individual "slice" and use them for a memory card game or a "go fish" game. To make it more difficult, instead of just asking for the objects by name, have your child describe them.
- Other activity idea: To work on describing skills, you can take turns playing "I Spy" by describing the different Christmas objects on the two wheels. When the other player figures out which object it is, he/she can place the clothespin on it.
